KEY DISCUSSION POINTS

SLF 2026 brings together industry leaders, innovators and decision-makers to discuss the latest market trends, technology advancements, sustainability initiatives and business opportunities shaping the future of the surfactants industry.

Global & Market Outlook

Market trends, pricing dynamics, demand outlook, capacity additions and investment opportunities.

Next-Generation Surfactant Chemistry

Emerging chemistries, specialty surfactants and breakthrough innovations driving future formulations.

Feedstocks & Raw Material Dynamics

Oleochemicals, Petrochemicals, LAB, EO/PO, alcohols, supply security and cost volatility.

Bio-based & Green Surfactants

Commercialization, renewable feedstocks, sustainability, circular economy and industrial adoption.

Regulatory & Compliance

BIS, REACH, GHS, EPA updates, product stewardship and evolving compliance requirements.

Applications & Formulation Science

Home Care, Personal Care, Industrial Cleaners, Agrochemicals, Oilfield and Coatings applications.

Supply Chain, Packaging & Safety

Packaging standards, logistics, safe handling, ESG prevention, fire safety and risk mitigation.

Digitalisation & AI in Manufacturing

Smart manufacturing, automation, predictive maintenance and operational excellence.

Startups, Innovation & Green Technologies

Fermentation, enzymatic processes, green synthesis and next-generation manufacturing solutions.

India as a Global Surfactants Hub

Trade opportunities, investments, strategic partnerships, competitiveness and future industry growth.

Surfactants Leadership Forum 2026: The Ecosystem and Value Chain Vision

VISITOR PROFILE

Surfactants Leadership Forum 2026: The Ecosystem and Value Chain Vision

End-Use Industry Leaders

Decision makers and professionals from key end-use sectors such as Home Care, Personal Care, I&I Cleaning, Agrochemicals, Oil & Gas, Paints & Coatings, Textile, Paper, Mining, Construction, etc.

Logistics and Transportation Professionals

Experts from logistics providers, freight forwarders, shipping lines and transport companies involved in movement of raw materials and finished products.

Investors, Consultants and Industry Analysts

Investors, consultants, market analysts and other stakeholders providing insights and strategic guidance.

Packaging Solution Providers

Manufacturers and suppliers of packaging materials, drums, totes, IBCs, closures and sustainable packaging solutions.

Surfactant Manufacturers and Suppliers

Companies involved in the production and supply of surfactants and specialty surfactants.

Supply Chain and Procurement Professionals

Supply chain managers, procurement heads and planners focused on sourcing, inventory management and optimization.

Raw Material Producers and Distributors

Producers and distributors of raw materials, intermediates and additives used in surfactant manufacturing.

Safety Equipment and Service Providers

Providers of industrial safety equipment, PPE, risk assessment, training and workplace safety solutions.

R&D, Innovation and Technical Professionals

Scientists, researchers, formulators and technical experts driving product innovation and process development.

Laboratory, Testing and Quality Professionals

Quality control managers, laboratory professionals and testing service providers ensuring product quality, compliance and performance.

Sustainability, EHS and Regulatory Experts

Professionals focused on sustainability, environmental compliance, safety, policy-making bodies affairs.
